JOHN LADIPO

PROFILE

Web developer with 7 years of experience who excels in designing and implementing automated test suites for both web and native applications. Additionally, I am proficient in setting up CI/CD systems and analyzing products and technologies to develop effective growth strategies for businesses, and develop strategies that elevate business growth

SKILLS

- HTML
- CSS
- JavaScript
- ¡Query
- Python
- Java
- SQL
- Git
- React

- Angular
- Vue.js
- Agile and Scrum Methods
- Waterfall Methods
- UI/UX Design
- Cross-Browser Compatibility
- Continuous Integration/Continuous Deployment (CI/CD)
- Testing and Debugging techniques

PROFESSIONAL EXPERIENCE

Emil Tech Limited (Contract) Full Stack Developer

Oct 2021 – Present

- Led the successful development and implementation of visually appealing and responsive front-end interfaces for 12 projects, resulting in improved user experiences and increased user engagement.
- Developed and maintained efficient, scalable, and secure cross-browser-compatible websites and applications, ensuring consistent functionality and design for different browsers and devices across the full stack.
- Collaborated closely with UI/UX designers, product managers, and other stakeholders to translate design concepts into interactive and pixel-perfect front-end code, understand project requirements and translate them into technical solutions delivering projects on time and exceeding client expectations.
- Implemented web accessibility features and adhered to WCAG standards, ensuring that
 websites and applications were accessible to people with disabilities and complying with
 accessibility guidelines.

- Acted as a mentor to junior front-end developers, providing guidance on best practices, new technologies, and coding techniques, fostering their growth and development within the team.
- Actively conducted thorough testing and debugging of web applications, ensuring highquality deliverables while participating in code reviews, providing constructive feedback to peers and ensuring code quality, maintainability, and adherence to best practices for high-quality deliverables.

UCS Limited Front End Developer

Sep 2019 - Oct 2021

- Implemented performance optimization techniques, such as minification, caching, and image optimization, resulting in significantly improved page load times and overall website performance.
- Developed reusable front-end components and libraries, contributing to the creation of a scalable and efficient front-end codebase, reducing development time and effort for future projects.
- Successfully integrated front-end code with back-end systems and APIs, enabling seamless data exchange and smooth functionality between the front-end and back-end layers.
- Wrote clean, modular, and well-documented code using appropriate programming languages and frameworks.

The Comforter's Place Clinics Ltd. Junior Developer(Intern)

Mar 2016 - Aug 2019

- Implemented responsive web design principles, creating fluid and adaptive layouts that seamlessly adapt to different screen sizes and devices, providing an optimal user experience.
- Proactively researched and implemented emerging front-end technologies and frameworks, enhancing the team's skillset and staying ahead of industry trends.
- Received positive client feedback and recognition for delivering high-quality front-end solutions, meeting project goals, and exceeding client expectations for design, functionality, and user experience.

EDUCATION

Conestoga College, Waterloo, ON

Web Development, Graduate Certificate, 2023

freeCodeCamp

Full Stack Web Development Certificate, 2018

Covenant University, Nigeria

Management Information Systems, 2013

VOLUNTEERING

CyberTech Summer Camp

August 2019, 2020

Volunteer Instructor (Python, JavaScript and UI)

CERTIFICATION

- Front-End Web UI Frameworks and Tools, The Hong Kong University of Science and Technology (Coursera) 2020
- 'Python Programming Essentials', Rice University (Coursera) 2020
- 'Python Data Representations', Rice University (Coursera) 2020
